

Ministrainer 20 µm

Catalog No	Quantity	Packaging Units
43-10020-40	25 pcs. sterile	1 Bag of 25 pcs.
43-10020-50	50 pcs. sterile	2 Bags of 25 pcs
43-10020-60	100 pcs. sterile	4 Bags of 25 pcs
43-10020-70	500 pcs. sterile	20 Bags of 25 pcs
43-10020-80	1000 pcs. sterile	40 Bags of 25 pcs.

Component Description

The 20 µm Ministrainer is a sieving device (or cell strainer) for a wide range of laboratory applications where filtration and purification of liquids is required. It has been optimized for small sample volumes.

Specification

Strainer	blue-transparent
Lot No.	see label
Mesh material	PET precision woven monofilaments, injected into the housing for mechanical stability
Housing material	Polypropylene
Autoclavable	No
Chem. Stability	RTL® Buffer, TRIzol®, Isopropanol, organic solvents
To centrifuge	Yes
Shipping	Room temperature
Storage	Dry, room temperature
Fits onto	1.5 ml, 2.0 ml reaction tubes, 5 ml FACS™ tubes, Cryo vials, 15 ml conical centrifuge tubes, 24 well plate and 48 well plate.
