

Ministrainer 70 µm

Catalog No	Quantity	Packaging Units
43-10070-40	25 pcs. sterile	1 Bag of 25 pcs.
43-10070-50	50 pcs. sterile	2 Bags of 25 pcs.
43-10070-60	100 pcs. sterile	4 Bags of 25 pcs.
43-10070-70	500 pcs. sterile	20 Bags of 25 pcs.
43-10070-80	1,000 pcs. sterile	40 Bags of 15 pcs.

Component Description

The Ministrainer is a sieving device (or cell strainer) for a wide range of laboratory applications where filtration and purification of liquids is required. It has been optimized for small sample volumes. Its unique design allows fitting on a wide variation of tubes, e.g. 1.5 ml /2.0 ml reaction tubes, 15 ml conical centrifuge tubes, FACS™ tubes, Cryo vials, 24 well plate and 48 well plate.

Specification

Sterility	sterile
Strainer color	gray-transparent
Lot No.	see label
Mesh material	PET precision woven monofilaments, injected into the housing for mechanical stability
Housing material	LD-PE
To centrifuge	Yes
Fits onto	1.5 ml, 2.0 ml reaction tubes, 5 ml FACS tubes, Cryo vials, 15 ml conical centrifuge tubes, 24 well plate and 48 well plate.
